TABLE OF CONTENTS

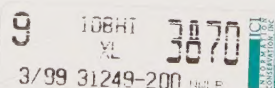

THE JOURNAL OF HORTICULTURAL SCIENCE & BIOTECHNOLOGY, VOL. 73

NO. 1 (JANUARY 1998)

D. W. GRIFFITHS, A. N. E. BIRCH and J. R. HILLMAN: Review Article: Antinutritional compounds in the <i>Brassicaceae</i> : Analysis, biosynthesis, chemistry and dietary effects	1-18
P. FORTUNA, S. MORINI and M. GIOVANNETTI: Effects of arbuscular mycorrhizal fungi on <i>in vivo</i> root initiation and development of micropropagated plum shoots	19-28
L. HØYER: Silver thiosulphate can considerably reduce leaf and fruit abscission caused by ethylene in <i>Capsicum annuum</i> 'Janne'	29-34
J. G. ATHERTON, D. M. YEH and G. A. TUCKER: Timing of the protein changes during phase transition in cineraria	35-38
M. TANAKA, T. TAKAMURA, H. WATANABE, M. ENDO, T. YANAGI and K. OKAMOTO: <i>In vitro</i> growth of <i>Cymbidium</i> plantlets cultured under superbright red and blue light-emitting diodes (LEDs) ..	39-44
J. G. ATHERTON, D. M. YEH, J. CRAIGON and G. A. TUCKER: Leaf initiation and shoot apical diameter in relation to phase transition in cineraria	45-51
CHI-NI HSIA and S. S. KORBAN: Effect of growth regulators, dark treatment and light intensity on shoot organogenesis from leaf tissues of evergreen azalea	53-60
Y. KANO: A physiological disorder in secondary phloem of carrot roots (<i>Daucus carota</i> L.) in Japan	61-64
Y. DICZBALIS and C. M. MENZEL: Low temperatures decrease CO ₂ assimilation and growth in the tropical rambutan	65-71
W. G. PILL and D. J. BISCHOFF: Resin-coated, controlled-release fertilizer as a pre-plant alternative to nitrogen enrichment of stem core in soilless media containing ground stem core of kenaf (<i>Hibiscus cannabinus</i> L.)	73-79
E. PROTOPADAKIS and X. PAPANIKOLAOU: Characterization of <i>Citrus aurantium</i> and <i>C. taiwanica</i> rootstocks by isozyme and essential oil analysis	81-85
J. A. SANCHEZ, J. P. ZAMORANO and R. ALIQUE: Polygalacturonase, cellulase and invertase activities during cherimoya fruit ripening	87-92
ANA MARIA JORDAN, M. C. CALVO and J. SEGURA: Micropropagation of adult <i>Lavandula dentata</i> plants	93-96
J. ARAMBURU and M. ROVIRA: The effects of apple mosaic ilarvirus (ApMV) on hazelnut (<i>Corylus avellana</i> L.)	97-101
J. CARREÑO, S. FARAJ and A. MARTINEZ: Effects of girdling and covering mesh on ripening, colour and fruit characteristics of 'Italia' grapes	103-106
J. EGEA and L. BURGOS: Fructification problems in continental apricot cultivars growing under Mediterranean climate. Ovule development at anthesis in two climatic areas	107-110
BIRGIT A. UHLIG: Effects of solar radiation on grape (<i>Vitis vinifera</i> L.) composition and dried fruit colour	111-123
J. L. ANDRIOLO, N. A. STRECK, G. A. BURIOL, L. LUDKE and T. S. DUARTE: Growth, development and dry-matter distribution of a tomato crop as affected by environment	125-130
E. PRESSMAN, HANNA MOSHKOVITCH, KATERINA ROSENFELD, RACHEL SHAKED, B. GAMLIEL and B. ALONI: Influence of low night temperatures on sweet pepper flower quality and the effect of repeated pollinations, with viable pollen, on fruit setting	131-136
M. A. EASTERBROOK: The beneficial fauna of strawberry fields in south-east England	137-144
FORTHCOMING PAPERS	124

Contents list available on Internet web page:

<http://www.horticulture.demon.co.uk/>

A. SANTOS, ANA P. SILVA and E. ROSA: Shoot growth and yield of hazelnut (<i>Corylus avellana</i> L.) and the influence of climate: Ten years of observations	145-150
D. S. JOHNSON, T. J. SAMUELSON, K. PEARSON and J. TAYLOR: Effects of soil applications of potassium sulphate on the mineral composition and eating quality of stored 'Conference' and 'Doyenné du Comice' pears	151-157
M. AMEHA, R. M. SKIRVIN, G. MITIKU, D. BULLOCK and P. HOFMANN: <i>In vitro</i> tendril and flower development in cucumber (<i>Cucumis sativus</i>) may be regulated by gibberellins	159-163
S. K. KANG, H. MOTOSUGI, K. YONEMORI and A. SUGIURA: Supercooling characteristics of some deciduous fruit trees as related to water movement within the bud	165-172
HE JIE and LEE SING KONG: Growth and photosynthetic responses of three aeroponically grown lettuce cultivars (<i>Lactuca sativa</i> L.) to different rootzone temperatures and growth irradiances under tropical aerial conditions	173-180
GUN-HEE KIM and RON B. H. WILLS: Interaction of enhanced carbon dioxide and reduced ethylene on the storage life of strawberries	181-184
B. MATYSIAK and J. NOWAK: Acclimatization and the growth of <i>Ficus benjamina</i> microcuttings as affected by carbon dioxide concentration	185-188
M. MATAA and S. TOMINAGA: Reproductive-vegetative shoot growth interactions and relationship to non-structural carbohydrates in immature ponkan mandarin (<i>Citrus reticulata</i> Blanco)	189-194
G. ISH-AM and D. EISIKOWITCH: Low attractiveness of avocado (<i>Persea americana</i> Mill.) flowers to honeybees (<i>Apis mellifera</i> L.) limits fruit set in Israel	195-204
KAREN K. PETERSEN, J. WILLUMSEN and K. KAACK: Composition and taste of tomatoes as affected by increased salinity and different salinity sources	205-215
H. KHEMIRA, T. L. RIGHETTI and A. N. AZARENKO: Nitrogen partitioning in apple as affected by timing and tree growth habit	217-223
H. HARADA and Y. MURAI: <i>In vitro</i> flowering on long-term subcultured pear shoots	225-228
Y. H. PENG and E. RABE: Effect of differing irrigation regimes on fruit quality, yield, fruit size and net CO ₂ assimilation of 'Mihowase' satsuma	229-234
K. GREVSEN: Effects of temperature on head growth of broccoli (<i>Brassica oleracea</i> L. var. <i>italica</i>): Parameter estimates for a predictive model	235-244
J. M. LL. DAVIES, J. S. W. DICKENS, A. J. INMAN, O. W. JONES, P. J. REED and D. G. WILSON: Fungi associated with, and possible causes of, neck rot of narcissus	245-250
RITA BARALDI, F. RAPPARINI, A. ROTONDI and G. BERTAZZA: Effects of simulated light environments on growth and leaf morphology of peach plants	251-258
U. GALDERISI, M. CIPOLLARO, G. DI BERNARDO, L. DE MASI, G. GALANO and A. CASCINO: Molecular typing of Italian sweet chestnut cultivars by random amplified polymorphic DNA analysis	259-263
HANS J. ROSENFELD, RAGNAR T. SAMUELSEN and PER LEA: Relationship between physical and chemical characteristics of carrots grown at northern latitudes	265-273
HANS J. ROSENFELD, RAGNAR T. SAMUELSEN and PER LEA: The effect of temperature on sensory quality, chemical composition and growth of carrots (<i>Daucus carota</i> L.) I. Constant diurnal temperature	275-288
FORTHCOMING PAPERS	274

D. S. TUSTIN, W. M. CASHMORE and R. B. BENSLEY: The influence of orchard row canopy discontinuity on irradiance and leaf area distribution in apple trees	289-297
G. CAPUANO, E. PICCIONI and A. STANDARDI: Effect of different treatments on the conversion of M.26 apple rootstock synthetic seeds obtained from encapsulated apical and axillary micropropagated buds	299-305
BERNARDA CASTILLO, M. A. L. SMITH and U. L. YADAVA: Liquid system scale up of <i>Carica papaya</i> L. somatic embryogenesis	307-311
P. GUILLÉN, A. DOMÈNECH, C. LARRIGAUDIÈRE and M. VENDRELL: Ethylene-induced rise of abscisic acid levels and ACC oxidase activity in immature melons	313-316
SHINYA KANZAKI, KEIZO YONEMORI, AKIRA SUGIURA and SURANANT SUBHADRABANDHU: Phylogenetic relationships of the common durian (<i>Durio zibethinus</i> Murray) to other edible <i>Durio</i> spp. by RFLP analysis of an amplified region of cpDNA	317-321
R. GHORBEL, L. NAVARRO and N. DURAN-VILA: Morphogenesis and regeneration of whole plants of grapefruit (<i>Citrus paradisi</i>), sour orange (<i>C. aurantium</i>) and alemow (<i>C. macrophylla</i>)	323-327
BIRGIT A. UHLIG and P. R. CLINGELEFFER: The influence of grape (<i>Vitis vinifera</i> L.) berry maturity on dried fruit colour	329-339
RYOHEI NAKANO, KEIZO YONEMORI and AKIRA SUGIURA: Fruit respiration for maintaining sink strength during final swell at growth stage III of persimmon fruit	341-346
S. I. SHIBAIRO, M. K. UPADHYAYA and P. M. A. TOIVONEN: Influence of preharvest water stress on postharvest moisture loss of carrots (<i>Daucus carota</i> L.)	347-352
G. PERCIVAL and J. GERRITSEN: The influence of plant growth regulators on root and shoot growth of containerized trees following root removal	353-359
R. J. COLGAN and D. S. JOHNSON: The effects of postharvest application of surface sterilizing agents on the incidence of fungal rots in stored apples and pears	361-366
SONIA L. SIMMONS, P. J. HOFMAN, A. W. WHILEY and SUZAN E. HETHERINGTON: Effects of leaf:fruit ratios on fruit growth, mineral concentration and quality of mango (<i>Mangifera indica</i> L. cv. Kensington Pride)	367-374
P. T. AUSTIN, E. W. HEWETT, D. NOITON and J. A. PLUMMER: Self incompatibility and temperature affect pollen tube growth in 'Sundrop' apricot (<i>Prunus armeniaca</i> L.)	375-386
C. BUSSI and M. J. AMIOT: Effects of nitrogen and potassium fertilization on growth, yield and pitburn of apricot (cv. Bergeron)	387-392
KAARINA S. HÄNNINEN: Effects of clovers as vegetative ground cover on the growth of red birch in nursery field production	393-398
L. H. AUNG, D. M. OBENLAND and L. G. HOUCK: Conditioning and heat treatments influence flavedo soluble sugars of lemon	399-402
C. L. M. DE VISSER: Effects of split application of nitrogen on yield and nitrogen recovery of spring-sown onions and on residual nitrogen	403-411
G. ARRAS, V. DE CICCIO, S. ARRU and G. LIMA: Biocontrol by yeasts of blue mould of citrus fruits and the mode of action of an isolate of <i>Pichia guilliermondii</i>	413-418
D. S. THOMAS and D. W. TURNER: Leaf gas exchange of droughted and irrigated banana cv. Williams (<i>Musa</i> spp.) growing in hot, arid conditions	419-429
FORTHCOMING PAPERS	430

A. NAOR: Relations between leaf and stem water potentials and stomatal conductance in three field-grown woody species	431-436
M. ARAYA, A. VARGAS and A. CHEVES: Changes in distribution of roots of banana (<i>Musa</i> AAA cv. Valery) with plant height, distance from the pseudostem, and soil depth	437-440
D. A. STONE: The effects of "starter" fertilizer injection on the growth and yield of drilled vegetable crops in relation to soil nutrient status	441-451
A. TEHRANIFAR, P. LE MIERE and N. H. BATTEY: The effects of lifting date, chilling duration and forcing temperature on vegetative growth and fruit production in the June bearing strawberry cultivar Elsanta	453-460
M. STOPAR: Apple fruitlet thinning and photosynthate supply	461-466
S. KONDO and A. TOMIYAMA: Changes of free and conjugated ABA in the fruit of 'Satohnishiki' sweet cherry and the ABA metabolism after application of (s)-(+)-ABA	467-472
SANLIANG GU, LESLIE H. FUCHIGAMI, LAI LIANG CHENG, SUNG H. GUAK and CHARLES SHIN: Effects of antitranspirant and leaching on medium solution osmotic potential, leaf stomatal status, transpiration, abscisic acid content and plant growth in 'Early Girl' tomato plants (<i>Lycopersicon esculentum</i>)	473-477
A. SHAMINA, T. JOHN ZACHARIAH, B. SASIKUMAR and JOHNSON K. GEORGE: Biochemical variation in turmeric (<i>Curcuma longa</i> Linn.) accessions based on isozyme polymorphism	479-483
M. RAVIV, A. KRASNOVSKY, S. MEDINA and R. REUVENI: Assessment of various control strategies for recirculation of greenhouse effluents under semi-arid conditions	485-491
B. ESTRADA, F. POMAR, J. DÍAZ, F. MERINO and M. A. BERNAL: Effects of mineral fertilizer supplementation on fruit development and pungency in 'Padrón' peppers	493-497
T. NISHIZAWA, Y. SHISHIDO and H. KUMAKURA: Mobilization of ¹⁴ C-carbohydrate reserves in relation to vegetative growth and inflorescence development in June bearing strawberry plants	499-505
S. P. PETROPOULOU and F. H. ALSTON: Selecting for improved pollination at low temperatures in apple	507-512
C. L. ZHANG and H. B. HUANG: The stunted fruit disorder - A physiological anomaly in mango (<i>Mangifera indica</i> L.) caused by a fluorine pollutant	513-516
C. G. TZOUTZOUKOU, C. A. PONTIKIS and A. TOLIA-MARIOLI: Effects of gibberellic acid on bloom advancement in female pistachio (<i>Pistacia vera</i> L.)	517-526
N. J. BOSTANIAN, H. THISTLEWOOD and G. RACETTE: Effects of five fungicides used in Quebec apple orchards on <i>Amblyseius fallacis</i> (Garman) (Phytoseiidae: Acari)	527-530
M. A. EASTERBROOK and D. W. SIMPSON: Resistance to two-spotted spider mite <i>Tetranychus urticae</i> in strawberry cultivars and wild species of <i>Fragaria</i> and <i>Potentilla</i>	531-535
M. AGUSTI, I. ANDREU, M. JUAN, V. ALMELA and L. ZACARIAS: Effects of ringing branches on fruit size and maturity of peach and nectarine cultivars	537-540
N. BERTIN, C. GARY, M. TCHAMITCHIAN and B. E. VAISSIERE: Influence of cultivar, fruit position and seed content on tomato fruit weight during a crop cycle under low and high competition for assimilates	541-548
A. P. EVERAARTS and C. P. DE MOEL: The effect of planting date and plant density on yield and grading of Brussels sprouts	549-554
F. D. BROOM, G. S. SMITH, D. B. MILES and T. G. A. GREEN: Within and between tree variability in fruit characteristics associated with bitter pit incidence of 'Braeburn' apple	555-561
ROLF NESTBY: Effect of N-fertigation on fruit yield, leaf N and sugar content in fruits of two strawberry cultivars	563-568
S. A LE GRANGE, K. I. THERON and G. JACOBS: Influence of the number of calcium sprays on the distribution of fruit mineral concentration in an apple orchard	569-573
FORTHCOMING PAPERS	574

SAICHOL KETSA and TIRA DAENGKANIT: Physiological changes during postharvest ripening of durian fruit (<i>Durio zibethinus</i> Murray)	575-577
HANS J. ROSENFELD, RAGNAR T. SAMUELSEN AND PER LEA: The effect of temperature on sensory quality, chemical composition and growth of carrots (<i>Daucus carota</i> L.). II. Constant diurnal temperatures under different seasonal light regimes	578-588
M. O. NYANJAGE, H. WAINWRIGHT and C. F. H. BISHOP: The effects of hot-water treatments in combination with cooling and/or storage on the physiology and disease of mango fruits (<i>Mangifera indica</i> Linn.)	589-597
P. J. WILSON: Variation in maturity traits within individual apples of cultivar Jonagold	598-600
M. K. KO, J. YANG, Y. H. JIN, C. H. LEE and B. J. OH: Genetic relationships of <i>Viola</i> species evaluated by random amplified polymorphic DNA analysis	601-605
R. E. GOUGH: Vegetative and reproductive development of the Montana blue huckleberry (<i>Vaccinium globulare</i> Rydb.)	606-611
J. S. KAUB, L. J. TRAIN, R. U. VITIELLO and L. F. DE FILIPPIS: Mechanism of chemical root pruning in kangaroo paw (<i>Anigozanthos flavidus</i>) by selected heavy metal carbonates	612-617
H. OKUDA and T. HIRABAYASHI: Effect of IAA gradient between the peduncle and branch on physiological drop of citrus fruit (Kiyomi tangor)	618-621
D. S. JOHNSON and M. S. RIDOUT: Prediction of storage quality of 'Cox's Orange Pippin' apples from nutritional and meteorological data using multiple regression models selected by cross validation	622-630
FERDOUS GHEYAS, SYLVIA M. BLANKENSHIP, ERIC YOUNG and ROGER McFEETERS: Dietary fibre composition in developing apple fruits	631-639
YVONNE VENTURA and SAMUEL MENDLINGER: Effect of sub-optimal low temperatures on plant architecture and flowering in muskmelons <i>Cucumis melo</i> L.	640-646
A. S. CITERNESI, C. VITAGLIANO and M. GIOVANNETTI: Plant growth and root system morphology of <i>Olea europaea</i> L. rooted cuttings as influenced by arbuscular mycorrhizas	647-654
R. K. REEDER, T. A. OBREZA and R. L. DARNELL: Establishment of a non-dormant blueberry (<i>Vaccinium corymbosum</i> hybrid) production system in a warm winter climate	655-663
GRAZIA MARINO and GIANPAOLO BERTAZZA: Selection-pressure effects of medium pH during regeneration on successive performances of leaf-derived 'Tomuri' and 'Hayward' kiwifruit (<i>Actinidia deliciosa</i>) somaclones cultured on proliferation culture media with variable pH	664-669
GRAZIA MARINO, GIANPAOLO BERTAZZA and CLAUDIO BUSCAROLI: <i>In vivo</i> growth and tolerance to lime-induced iron chlorosis of leaf-derived cvs. Tomuri and Hayward kiwifruit (<i>Actinidia deliciosa</i>) somaclones	670-675
J. V. CROSS and C. M. BURGESS: Strawberry fruit yield and quality responses to flower bud removal: A simulation of damage by strawberry blossom weevil (<i>Anthonomus rubi</i>)	676-680
K. INOUE, N. OYAMA, S. KONDO, Y. HAYATA and H. YOKOTA: Production of ascorbic acid enriched vegetables: Absorption of an L-ascorbic acid solution and the effect of storage temperature on the foliar exogenous ascorbic acid content	681-686
R. G. MCGUIRE: The response of longan fruit to cold and gamma irradiation treatments for quarantine eradication of exotic pests	687-690
D. C. E. WURR and JANE R. FELLOWS: Leaf production and curd initiation of winter cauliflower in response to temperature	691-697
D. MCCALL and J. WILLUMSEN: Effects of nitrate, ammonium and chloride application on the yield and nitrate content of soil-grown lettuce	698-703
A. P. EVERAARTS and M. L. VAN BEUSICHEM: The effect of planting date and plant density on nitrogen uptake and nitrogen harvest by Brussels sprouts	704-710
A. P. EVERAARTS, R. BOOIJ and C. P. DE MOEL: Yield formation in Brussels sprouts	711-721
FORTHCOMING PAPERS	723

K. P. MURPHY, J. M. SANTAMARIA, W. J. DAVIES and P. J. LUMSDEN: Ventilation of culture vessels. I. Increased growth <i>in vitro</i> and survival <i>ex vitro</i> of <i>Delphinium</i>	725-729
ANITA SØNSTEBY and ARNFINN NES: Short days and temperature effects on growth and flowering in strawberry (<i>Fragaria</i> × <i>ananassa</i> Duch.)	730-736
L. R. BENJAMIN and R. J. READER: A dynamic model for simulating edge effects in carrot crops	737-742
B. ALONI, LEAH KARNI, IRENA RYLSKI, Y. COHEN, Y. LEE, M. FUCHS, S. MORESHET and C. YAO: Cuticular cracking in pepper fruit. I. Effects of night temperature and humidity	743-749
T. R. WHEELER, A. J. DAYMOND, R. H. ELLIS, J. I. L. MORISON and P. HADLEY: Postharvest sprouting of onion bulbs grown in different temperature and CO ₂ environments in the UK	750-754
J. CLEMENS, D. J. DENNIS, R. C. BUTLER, M. B. THOMAS, A. INGLE and T. E. WELSH: Mineral nutrition of <i>Zantedeschia</i> plants affects plant survival, tuber yield, and flowering upon replanting	755-762
DONGLIN ZHANG and PETER C. QUANTICK: Antifungal effects of chitosan coating on fresh strawberries and raspberries during storage	763-767
S. SHIOZAKI, M. PAN, T. OGATA, S. HORIUCHI and K. KAWASE: Jasmonic acid effects on gibberellic acid-induced seedlessness in 'Neo Muscat' table grapes	768-773
D. S. THOMAS and D. W. TURNER: Leaf age and environmental effects on gas exchange in leaves of bananas (cv. Williams) growing in a hot, arid environment	774-780
M. H. BEHBOUDIAN, J. DIXON and KALPANA POTHAMSHETTY: Plant and fruit responses of lysimeter-grown 'Braeburn' apple to deficit irrigation	781-785
P. LE MIÈRE, P. HADLEY, J. DARBY and N. H. BATTEY: The effect of thermal environment, planting date and crown size on growth, development and yield of <i>Fragaria</i> × <i>ananassa</i> Duch. cv. Elsanta	786-795
R. M. PEREZ, A. M. GALIANA, L. NAVARRO and N. DURAN-VILA: Embryogenesis <i>in vitro</i> of several <i>Citrus</i> species and cultivars	796-802
L. ABBEY, R. KANTON and H. BRAIMAH: Susceptibility of shallots to the timing and severity of leaf damage	803-805
T. L. BOTWRIGHT, R. C. MENARY and P. H. BROWN: Photosynthesis and assimilate partitioning during rhythmic growth of green tea (<i>Camellia sinensis</i> var <i>sinensis</i>)	806-811
ANU VÄINÖLÄ and OLAVI JUNTILA: Growth of <i>Rhododendron</i> cultivars as affected by temperature and light	812-821
ILL-WHAN SUL and SCHUYLER S. KORBAN: Effects of media, carbon sources and cytokinins on shoot organogenesis in the Christmas tree Scots pine (<i>Pinus sylvestris</i> L.)	822-827
Y. HE, A. LEVI and H. Y. WETZSTEIN: Sequence and developmental expression of a seed storage protein gene in pecan	828-830
D. C. PERCIVAL, J. T. A. PROCTOR and J.-P. PRIVÉ: Gas exchange, stem water potential and leaf orientation of <i>Rubus idaeus</i> L. are influenced by drought stress	831-840
PETER F. REAY: The effects of maturity on colour and concentration of pigments in the blush and shaded sides of 'Gala' apple fruit during cool storage	841-845
NAZIR A. MIR, MICHAEL WENDORF, RUFINO PEREZ and RANDOLPH M. BEAUDRY: Chlorophyll fluorescence as affected by some superficial defects in stored apples	846-850
S. BAÑÓN, A. GONZÁLEZ, J. A. FERNÁNDEZ and J. A. FRANCO: The effect of ethephon on the growth and development of <i>Liatris spicata</i>	851-855
R. C. ROSENCRANCE, R. S. JOHNSON and S. A. WEINBAUM: The effect of timing of post-harvest foliar urea sprays on nitrogen absorption and partitioning in peach and nectarine trees	856-861
SOLOMON I. SHIBAIRO, MAHESH K. UPADHYAYA and PETER M. A. TOIVONEN: Potassium nutrition and postharvest moisture loss in carrots	862-866
FORTHCOMING PAPERS	867
